

NX-P1202AV/P1302AU

2W VHF/UHF ANALOG PORTABLE RADIOS

Kenwood's ProTalk NX-P1202AV and NX-P1302AU portable two-way business radios deliver professional performance at an economical price point. Offering the ideal solution for communications in construction, manufacturing and warehousing, retail, hospitality, facility management and rental fleet applications. Engineered to provide superb ease of use and audio clarity, even in noisy environments and boasts rugged performance for dependable communications in all weather conditions. It's business done right!

FleetSync[®]

Simple Yet Tough

TOUGH & WATER RESISTANT ^{*2}

Built to take rough treatment in stride, the ProTalk has passed the demanding IP54/55 dust and water intrusion tests – both with and without the KMC-45 optional speaker microphone. It also meets or exceeds 11 stringent MIL-STD 8 10 C/D/E/F/G environmental standards, including "driven rain".

POWERFUL YET NATURAL SOUND OUTPUT

BTL audio amplifier for powerful 1-watt output.

Customize and Deploy

SECOND PTT

Make use of the Second PTT PTT feature by giving different instructions to different staff as the radio allows the use of main channel plus another channel^{*1}.

SELECTABLE 7-COLOR LED

A large 7-color LED indicator on the top panel illuminates to notify multi-status functions. ^{*1}

CLONING

Customize the radio programming one time and use the optional Cloning Cable to rapidly program groups of ProTalk radios with the same settings.

Secure

Confidentiality in radio communications is a KENWOOD priority, and helping to maintain a high level of security in analog mode is a 16-code voice inversion scrambler.

Upgrade to Digital

COMPATIBLE WITH DIGITAL AND ANALOG

This radio allows to upgrade to digital at a later time if you decide to transition from analog (requires license key). It enables to have dual mode NXDN digital and analog combined operation.

ENHANCED AUDIO QUALITY

Based on decades of experience with professional and high quality audio products, the NX-P1000 can be customized to deliver the best digital audio to business radio users with various language backgrounds.

DIGITAL TECHNOLOGY PROVIDES SUPERIOR CLARITY IN EXTENDED COVERAGE

As RF signal strength weakens with distance, analog reception becomes increasingly noisy. NEXEDGE - NXDN digital modulation technology improves audio recovery in fringe areas, thereby "effectively" increasing the usable coverage compared to analog. .

Other Features

- Voice Announcement • SCAN • VOX / Semi-VOX (headset required) ^{*1}
- Button Lock • Time-out Timer • Battery Saver^{*1} • Calling Alert • QT / DQT
